How to install Bluebeam from Software Center

1. Type "Software Center" into your start menu

2. Click the Software Center application

3. Once in Software Center you will see an Available Software tab. In here you should see Bluebeam.

4. Click the Check box next to the bluebeam install and then click install on the bottom right corner.
5. You should see the bluebeam application start to install in the Installation Status tab.
6. Once completely installed you will have a bluebeam application on your desktop that you will be able to launch.
7. After you launch Bluebeam and get into the application click on the "Help" tab and then click Register (the key icon)
